RE: Subsurface Water Quality Sampling, Quality Assurance (QA) and Quality Control (QC) Plan for Dump Leach Area #3

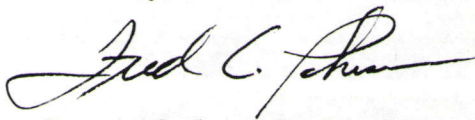

Dear Mr. Eurick:

We have reviewed the above referenced document required by your ground water quality discharge permit, No. UGW450001, Part I H(1). Our comments are attached.

Please modify the plan to address these comments. As per Part I E (7)(b) of the permit, ground water sampling must be in accordance with an approved sampling plan; therefore, we encourage you to modify the sampling plan as soon as possible.

If you have any questions or comments, please call Loren Morton at 538-6146.

Sincerely,

  
Don A. Ostler, P.E., Director  
Bureau of Water Pollution Control
